

PROCUREMENT

Emera Newfoundland & Labrador (ENL) is committed to ongoing communication with the business community to ensure potential suppliers learn about procurement opportunities on the Maritime Link Project. Currently, 90% of contracts for the Project have been awarded, however there are still a variety of initiatives and sub-contracting opportunities available for potential suppliers and contractors.

Emera Newfoundland & Labrador will:

- Own and oversee work on the entire Project;
- Be the main contracting entity;
- Be directly responsible for the Cabot Strait Marine Crossing engineering, procurement and construction;
- Be responsible for engineering, procurement and construction management for the Maritime Link on-land transmission systems and infrastructure; and
- Ensure compliance with the Maritime Link Diversity Plan.

Throughout the next 12 months, ENL will be looking for vendors and suppliers related to opportunities in the following areas:

- Environmental Studies
- Grounding Site Civil Construction Services
- Grounding Site Technical Supply and Install
- Temporary Construction Services

EVALUATION CRITERIA

Every procurement initiative is unique for a variety of reasons, and as a result, the Evaluation Criteria will be tailored to suit that particular initiative. Please note: the following is a sample of the types of criteria which may be used when evaluating a procurement initiative, and should not be considered a complete list:

- • Health, safety and security
- • Environmental
- • Gender and diversity
- • Commercial requirements
- • NL/NS Benefits Agreement MOU
- • Relevant experience
- • Creditworthiness
- • Quality assurance
- • Technical suitability
- • Service support
- • Schedule

SUB-CONTRACTING AND SUPPLIER OPPORTUNITIES

All awarded contracts and company contact information can be found under the “Contracts Awarded” tab within the **Procurement Section** of the ENL website. Companies interested in sub-contracting and supplier opportunities are encouraged to visit this section of the website and contact these successful contractors directly.
