

Request for Expressions of Interest

E26-O P204

Emera Newfoundland & Labrador operates the Maritime Link, a 500 MW +/- 200kV HVDC transmission link between the island of Newfoundland and Nova Scotia.

We presently seek from qualified companies an expression of interest in receiving a Request for Proposal to execute maintenance on the high voltage equipment classed as 600V and up at either one or both of our sites in Bottom Brook, NL and Woodbine, NS. The planned and unplanned activities will include:

- Disconnect and grounding switches, reactors, resistors, current transformers, Optical current transformers, DC current transformers, voltage dividers, capacitors, and circuit breakers.
- It is mandatory that the Service Provider attend the NSPML annual scheduled outage once a year. Estimated outage time schedules and the scope of work each year shall be provided within the Request for Proposal. The scope of work shall include a list of equipment considered in scope for each Annual Outage as well as specific maintenance and testing requirements.

Companies interested in participating may request a copy of the EOI questionnaire by emailing ENLprocurement@emera.com. Completed questionnaires must be submitted no later than **4:00 p.m. NST on October 19, 2026**.

Emera Newfoundland & Labrador is committed to conducting business in a manner that ensures the health and safety of all people on our worksites, is respectful of the environment, and promotes diversity and inclusion.
