

Request for Expressions of Interest

Fire Systems Inspection & Maintenance – E26-OP200

Emera Newfoundland & Labrador operates the Maritime Link, a 500 MW +/- 200kV HVDC transmission link between the island of Newfoundland and Nova Scotia.

We are presently seeking an Expression of Interest from companies with experience in the Inspection and Maintenance of Fire Systems in an **Industrial environment**.

The Fire Systems Inspection & Maintenance Program will be a multi-year service agreement to maintain the Maritime Link fire systems to Emera NL and OEM requirements per the established preventative maintenance program. Annual preventative maintenance shall be executed during annual maintenance period with strict timelines required. Emera NL facilities are located on the West Coast of the island of Newfoundland (Bottom Brook) and Cape Ray and in Cape Breton, Nova Scotia (Woodbine) and Point Aconi.

The planned activities include, but are not limited to:

- Inspections and preventative maintenance required by the OEM to ensure the continually safe and reliable operation of the Fire Systems on an annual basis.
- Supply and replacement of consumables and spare parts as needed
- Submission of written reports after each site visit detailing the work executed, spare parts and consumables used, any outstanding work and summary of cost incurred.
- Emergency/On-demand requests as needed. Response to be no more than 24 hours.

Companies interested in this expression of interest are asked to **request a copy of the questionnaire** at ENLprocurement@emera.com.

The completed EOI questionnaire is to be returned no later than 2 p.m. NST on January 27, 2026.

Emera Newfoundland & Labrador is committed to conducting business in a manner that ensures the health and safety of all people on our worksites, fosters sustainability by respecting the environment and recognizing the need for proactive climate change measures, and promotes diversity and inclusion.
