

Request for Expressions of Interest

Annual Vegetation Management Program

E26-OP202

Emera Newfoundland & Labrador operates the Maritime Link, a 500 MW +/- 200kV HVDC transmission link between the island of Newfoundland and Nova Scotia.

We presently seek expressions of interest from companies whose services, labour and experience are suitable for implementing a multi-year Vegetation Management Program (2026 to 2029) on 'existing' Transmission Line rights of way located in Newfoundland. Planned activities include:

- (a) Vegetation control of incompatible vegetation; specifically ground clearing and approved herbicide application located sporadically along the entire length.
- (b) Risk mitigation by cutting and felling of trees of concern to reliability
- (c) Weed control in electrical industrial sites or substations.

Companies interested in this Expression of Interest are asked to **request a copy of the questionnaire** at ENLprocurement@emera.com

The completed EOI questionnaire is to be returned no later than **4 p.m. NST on February 18, 2026.**

Emera Newfoundland & Labrador is committed to conducting business in a manner that ensures the health and safety of all people on our worksites, fosters sustainability by respecting the environment and recognizing the need for proactive climate change measures, and promotes diversity and inclusion.
